BREAKING

Kabirdham Becomes Chhattisgarh's First AI-Ready CHO District

TRAINING PROGRAMME DESIGNED UNDER WHO'S SIX CORE PRINCIPLES FOR AI IN HEALTH

## Jaimini Group

Healthcare Intelligence & Execution Group

### ABOUT THE PROGRAMME

#### MISSION

Build AI infrastructure at AAM level and empower CHOs to automate documentation, improve planning, and reduce time to collect more meaningful patient data.

#### ASSOCIATIONS

NHM AB-HWC MoHFW DIGITAL INDIA  
NQAS | CPHC NHSRC ABDM

#### PROGRAMME DETAILS

**District:** Kabirdham, Chhattisgarh  
**Participants:** 90 CHOs & 70 SHCs  
**Duration:** 1 Day / 3 Core Units  
**Infrastructure:** Smartphone Only  
**Readiness:** 94% Post-Training

#### LONG TERM GOAL

Build AI-ready AAMs – create an AI base at every centre so that any future innovation, transformation, or programme by (government, Private agencies, NGOs, CSR, AI Startups & International firms) can be adopted seamlessly by CHOs and teams.

### Chhattisgarh's First AI-Ready CHO District

AI infrastructure now lives inside every AAM. A landmark achievement for community healthcare delivery.

~ Kabirdham, CG · 2026

## Voices From The Field

"Report mein 2-3 ghante lagte the. Ab 10 minute. Baaki time patient ke liye."

CHO, Kawardha

"CHOs ने live demo देखकर AI adopt कर लिया - मैंने तुरंत कहा Part 2 कब करोगे?"

BMO, Sahaspur

## Way Forward

- Vision:** To establish an AI-enabled infrastructure within Ayushman Arogya Mandirs that strengthens the capacity and performance of Community Health Officers to effectively deliver the 12 comprehensive service packages and improve last-mile access to primary healthcare under Universal Health Coverage.
- Continuous Learning Hub** – Create a regular, structured AI upskilling calendar at the district level where CHOs learn, practice, and stay current with evolving tools and use cases.
- Mission NQAS District** – Fully qualified NQAS district with quality implemented at all centres across multiple states. AI-trained CHOs are the execution backbone of this mission under Project Pravidhi.

## The Journey – How This Initiative Was Born

## Measured Impact Across Key Areas

| AREAS                                 | BEFORE | AFTER | GAIN | VERDICT        |
|---------------------------------------|--------|-------|------|----------------|
| Planning, Forecasting & Documentation | 49%    | 93%   | +44% | Highest Impact |
| AI Tools Adoption in Daily Work       | 55%    | 80%   | +25% | High Impact    |
| Data-Driven Decision Making (HMIS)    | 65%    | 90%   | +25% | High Impact    |
| Clinical Workflow AI Boundaries       | 76%    | 93%   | +17% | Strong         |
| AI Knowledge & Health Application     | 80%    | 95%   | +16% | Strong         |

MANUAL WORK - 18HRS  
with AI - 3HRS  
Time saved - 15hrs  
CHO/Week, redirected to patient care

AUTOMATION READINESS  
41% → 83%  
Generate + automate + verify

SMART WORK MINDSET  
31% → 78%  
Full readiness, all areas

TEAM EMPOWERMENT  
31% → 54%  
Digital + HMIS + AI

## “Kabirdham District CHOs Are Future AI Ready”
